

ST. PETER'S COLLEGE

JERSEY CITY, NEW JERSEY

COLLEGE

St. Peter's College was chartered as a University by a special act of the New Jersey Legislature in 1872.

A four years college course leads to the degree of Bachelor of Arts.

The curriculum is so arranged as to develop by liberal culture all the faculties of the student—memory, imagination, intellect and will.

Faithful pursuance of this course assures the student of the most precious treasures of science, literature and philosophy.

HIGH SCHOOL

In order to enter the first year of the high school candidates must have successfully passed an elementary or grammar school course.

Those not presenting Regents' certificates will have to undergo an examination in English, Mathematics, Geography and History.

The course is arranged with the characteristic Jesuit method of unity and opposed to extreme electivism. It being maintained that a student about to enter the vast realms of knowledge needs the direction of an experienced guide.

Conducted by the Jesuit Fathers

The college is situated on Grand Street, from Warren to Van Vorst Street, and is easily accessible by train or trolley from all parts of Northern New Jersey and Staten Island and by ferry or tunnels from New York City. A considerable reduction of fare is made to students by the railroad companies and trolley lines.

FALL TERM BEGINS, WEDNESDAY SEPT. 8

For Catalogue Address the President, Rev. James F. McDermott, S. J.

144 Grand Street, Jersey City, New Jersey
